For the purpose of such change the Contracting entity shall be entitled, before consenting to the change, to request from the Supplier, or the new economic operator respectively, to submit evidence proving that the new contracting party complies with conditions and requirements provided in the public procurement procedure preceding the conclusion of the Contract.

6. A written appendix to the Contract for the purpose of changes of lesser importance, such as change of address, bank account or contact details, shall not be required, but one party shall notify in writing the other thereof. 4. Unless otherwise provided by Special Conditions of Contract, the payments shall be effected as follows:

Where the goods cannot be accepted within the period stipulated herein, due to circumstances beyond the Contracting entity's control or circumstances they had not been able to prevent, eliminate or avoid, they shall notify the Supplier thereof and issue the statement as soon as possible, and not later than 10 days after such circumstances have ceased to exist.
4. Where the Contracting entity fails to issue or deny issuing the statement within 10 days, the Supplier shall invite them in writing to issue the statement. Where the Contracting entity fails to issue the statement or notify the Supplier thereof within the following 10 days from the receipt of such invitation, the goods shall be considered accepted. Where the Contract stipulates the delivery of goods in multiple groups of the subject-matter of procurement, the Supplier shall be authorised to request acceptance of individual groups.
5. In case of partial delivery of the goods or delivery of goods at different times according to the Contract, the Contracting entity shall accept the delivered goods by issuing the statement on acceptance of goods for individual parts of the delivered goods, pursuant to the Supplier's request for acceptance of goods submitted in accordance with paragraph 2. Partial deliveries shall be accepted where the delivered goods function as a single unit which may be used

individually and independently from the rest of the goods. The warranty for proper functioning of sold goods shall commence for the accepted part of the goods.

6. Upon the acceptance of goods, the Supplier shall remove any packaging and tidy up the place of acceptance, pursuant to the provisions hereof.
7. The Contracting entity may put the delivered goods into use immediately upon the acceptance. The issue date of the statement of acceptance of goods indicated next to the Contracting entity's signature thereon shall be considered the acceptance date.

Article 28 – Warranty obligation for proper functioning of sold goods

1. The Supplier shall warrant that the goods are functioning, new, unused and compliant with the requirements hereof.
2. The Supplier shall, at the Contracting entity's request, repair defective and/or damaged goods, or any part thereof, or replace them, if such repair is not possible, regardless of the time of occurrence of such deficiencies. The Supplier shall repair or replace such goods within the reasonable period stipulated by the Contracting entity in their notice of deficiency. The Contracting entity shall be entitled to request repair or replacement for the duration of the warranty period. The Supplier's obligation shall refer to any defect and/or damage, including those resulting from the use of defective materials, design or work.
3. All costs of the repair and/or replacement, including the cost of transporting the goods to the place of repair and return of the goods to the Contracting entity, shall be borne by the Supplier. The Supplier shall bear the risk of accidental destruction and damage to the goods for the duration of the repair. In case of minor repair of the goods, the warranty period shall be extended for as long as the Contracting entity has been deprived of the use of the goods, while in case of major repair or replacement the warranty period shall recommence from the replacement or return of the repaired goods. Where only a part of the goods has been replaced or significantly repaired, the warranty period shall recommence only for such part.
4. The Contracting entity shall notify the Supplier of any defect or damage within the warranty period. Where the Supplier fails to repair or replace defective goods within the period stipulated in the notice, the Contracting entity may:
 - a) Eliminate the deficiency or repair the defect or engage a third party to do so at the Supplier's risk and cost, whereby all costs incurred by the Contracting entity shall be claimed from the submitted guarantees if the Supplier fails to reimburse such costs; or
 - b) Terminate the Contract.
5. In cases of emergency, where the Supplier cannot be contacted or they inform, after making the contact, that they are incapable of taking necessary actions/measures, the Contracting entity may take the necessary actions/measures at the Supplier's cost. The Contracting entity shall notify the Supplier of the actions/measures taken as soon as possible.
6. Unless otherwise provided by the Special Conditions of Contract, the warranty period shall be one year. The warranty period shall commence on the date of acceptance of the goods and shall be extended or renewed in accordance with the provisions of paragraph 3. The warranty obligations shall not exclude the Supplier's legal obligation for material and legal defects of the goods nor affect the rights of the Contracting entity on other grounds. In any case, the Contracting entity shall reserve the right to claim indemnity.

7. Where the Supplier has a warranty for proper functioning of goods issued by the producer of the goods which refers to a period longer than the Supplier's warranty period pursuant to the provisions hereof, the Supplier shall submit such warranty to the Contracting entity after the expiry of the warranty period referred to in paragraph 6. The producer's warranty period shall not affect the issuance of a statement on proper performance of contractual obligations referred to in Article 29.

Article 29 – Statement on proper performance of contractual obligations

1. Upon the expiry of the Supplier's warranty period referred to in Article 28 or any warranties in case of the delivery of the goods at different times, including any extensions and renewals thereof, the Contracting entity shall issue a statement on proper performance of contractual obligations to the Supplier, indicating the date as on which the Supplier is considered to have performed all their contractual obligations. The date as on which obligations have been performed shall correspond to the expiry date of the warranty period or the last warranty period in case of multiple warranties. The statement shall be issued within 30 days from the expiry date of the warranty period or the last warranty period in case of multiple warranties. Where the Contracting entity fails to issue such statement or notify the reasons thereof within such period, the Supplier shall invite them in writing to issue the statement. Where the Contracting entity fails to issue the statement or notify the reasons thereof within the following 15 days from the receipt of such written invitation, the Supplier shall be considered to have performed their obligations.
2. Where the statement cannot be issued due to circumstances beyond the Contracting entity's control or circumstances they had not been able to prevent, eliminate or avoid, they shall notify the Supplier thereof and issue the statement within 15 days after such circumstances have ceased to exist.

BREACH AND TERMINATION OF THE CONTRACT

4. Where the Contracting entity is entitled to damage repair, they shall be able to offset the damage amount with any amounts due to the Supplier or claim reimbursement for such damage from the relevant guarantee.

5. The parties shall exercise the right to damage repair within the limitation periods stipulated by the applicable Civil Obligations Act.

Article 31 – Termination of the contract

1. Each party shall have the right in accordance with the provisions hereof governing Contract termination, to terminate the Contract if the counterparty breaches the Contract or fails to perform contractual obligations in the agreed manner and within the agreed deadlines and fails to eliminate such omissions within an additional period determined by the other party.
2. The suffering party shall submit to the party in breach of contract a notice of omission in writing, by fax or registered mail, from the receipt of which the additional period shall commence. Where the party in breach of contract fails to comply with contractual obligations, the Contract shall be deemed terminated without further notice or statements. Where the party in breach of contract eliminates the omission during the additional period, the termination shall not have any effect.
3. Notwithstanding paragraph 2, the Contract may be terminated by written notice without providing the additional period if the behaviour of any party suggests they shall not perform their obligations even during the additional period, or if they declare that they shall not perform their obligation at all.

Article 32 – Termination of the contract by the Contracting entity

1. The Contracting entity may terminate the Contract and provide additional 15 days from the receipt of the notice to eliminate the omission, for the following reasons:

 - e) Where the Supplier fails to submit requested guarantees pursuant to the provisions hereof, or a guarantee provider is not capable of performing their obligations, whereby the Supplier fails to submit a new valid guarantee;
 - f) Where the Supplier fails to perform their obligation in accordance with Article 8 of the General Conditions of Contract;
 - g) Where the Supplier fails to perform their obligation in accordance with Article 9 of the General Conditions of Contract.
2. The Contracting entity may, in exceptional cases and depending on the type and cause of the breach, extend the period for the performance or elimination of omission stipulated in paragraph 1 where such extension is justified by the circumstances of an individual case.
3. The Contracting entity may, at any time and without providing the additional period for the performance, terminate the Contract effective from the receipt of the written notice to the Supplier for the following reasons:

- a) Where the Supplier is bankrupt or being wound up, is having affairs administered by a person appointed by a competent court, has entered into a settlement with creditors, has suspended business activities or is in any similar situation arising from a similar procedure under regulations of their country of registration, as well as if preliminary proceedings have been instigated against the Supplier in order to determine conditions for opening bankruptcy proceedings, or liquidation proceedings ex officio, or proceedings of the competent court for appointment of the person to manage their business activities, or settlement proceedings with the creditors, or similar proceedings under regulations of their country of registration;

The Supplier shall bear all costs arising from the terminations, including the cost of returning the goods. The Contracting entity's right to damage repair shall not affect other rights they may exercise hereunder.
 5. Where the Supplier is incapable to deliver part of the goods to the Contracting entity due to their own fault, the Contracting entity shall reserve the right to partial termination of the Contract, as well as the right to complete procurement with due care of other goods corresponding to the undelivered goods in terms of quality and quantity. The Supplier shall continue the performance of the remaining part of the Contract. The Contracting entity shall, in any case, reserve the right to reimbursement of any thus caused damages, including the costs arising from differences in procurement value. Upon completing the procurement procedure, the Contracting entity shall be reimbursed for any unexpected costs incurred in the procurement of the goods, if any, or effect the payment of remaining due amounts to the Supplier.
 6. The Contract termination shall not affect other rights of the parties hereunder. After the termination, the Contracting entity may conclude any contract with a third party, in which case the Supplier shall indemnify the Contracting entity for any damage arising from the conclusion of a new contract on procurement of goods, including any costs arising from the difference in procurement value.
 7. Entering into force of the Contract termination shall release both parties from their obligations hereunder, except from indemnity. Where the Contract is terminated due to the Supplier's fault, the Supplier shall indemnify the Contracting entity for any damages incurred therefrom.

value of the goods and any amounts due to the Supplier as at the termination date, as well as any amounts due to the Contracting entity by the Supplier as at the termination date.

10. In case of the Contract termination, the Contracting entity shall, as soon as possible and in either presence or absence of the Supplier's representative, make a report on the goods delivered and works performed during their placement and installation, and sign the delivered, but unused materials.
11. The Contracting entity may terminate the Contract at any time by written notice to the Supplier with a notice period of 15 days from receipt of the notice of termination without indicating reasons thereof. In case of termination due to reasons which cannot be attributed to the Supplier's fault, force majeure, accident, or circumstances beyond the Contracting entity's control, the Supplier may, in addition to the reimbursement for the work already performed, seek compensation for damages incurred in terms of regular damage, but not of lost profit.

3. If a contracting party considers that any circumstance of force majeure which may affect the performance of their obligations, has occurred, they shall immediately inform the counterparty thereof orally, and in writing within 3 days from the occurrence of such circumstance. Such notice shall contain relevant details about the nature, possible duration and likely effects of the

circumstance, and evidence of its occurrence. A contracting party which fails to notify the counterparty, shall be liable to the counterparty for any damage they may incur due to such failure. Unless otherwise instructed by the Contracting entity in writing, the Supplier shall continue with the performance of their contractual obligations to the extent possible and shall explore different methods of performing the Contract. The Supplier shall apply a different method of performance only based on the Contracting entity's instruction.

4. Where the Supplier has incurred additional costs due to the Contracting entity's instruction, they shall be entitled to reimbursement of such costs. The Contracting entity shall approve the requested amount before executing the payment.
5. Where the circumstances of force majeure exceed 90 days, either party may terminate the Contract by written notice with a notice period of 30 days from the receipt thereof.
