Subject: Procurement procedure - Procurement of hardware and software, Publication reference: EV 01/2020 I, 1st clarification of procurement documentation

Infrastruktura d.o.o. received a letter from an interested economic entity related to the procurement documents for Procurement of hardware and software.

Inquiry of the interested economic entity:

In accordance with the tender published on the website of the Structural Funds, I kindly ask you to answer the questions:

Procurement 1.2.

- Is it necessary to include the installation on the location in the price, if so, please state the address of the location? The same question is for procurement 1.3. Which location is it?
- Is it necessary to include the installation of the docker service in the price, and does the supplier choose the version of the same or do you have any preferences?
- Does the documentation server have to be part of the application or can it be accessed as a separate domain? Does it have to be in PDF form or interactive?
- Additionally, please give info, are there exactly specified printers, what is meant by a mobile printer?

1.2.24.	The application must support printing to mobile printers
---------	--

- Is it necessary to deliver a certificate with the application and what kind of certificate must it be?

1.2.26.	Possibility of embedding SSL certificates in communication
---------	--

Procurement 1.3.:

1.3.17.	Supported versions: <ul style="list-style-type: none">- Oracle 11g R2 (11.2.0.4.0) Standard Edition / Standard Edition One or Two or- Oracle 12c (12.1.0.2.0) Standard Two, Enterprise Edition or equivalent
---------	---

These versions of Oracle databases are not available, is the latest version 19c acceptable?

Contracting Authority's response:

Procurement 1.2.

- Is it necessary to include the installation on the location in the price, if so, please state the address of the location? The same question is for procurement 1.3. Which location is it?*

Yes, it is necessary to include the installation, as described in the Technical Specifications. Place of delivery of Procurement subject is at Contracting Authority's premises: Poduzetnička 18, 42202 Trnovec Bartolovečki, Croatia.

- Is it necessary to include the installation of the docker service in the price, and does the supplier choose the version of the same or do you have any preferences?*

Yes, the system needs to be offered installed on a docker platform. The provider is free to offer a version of the docker platform according to what the application supports.

- Does the documentation server have to be part of the application or can it be accessed as a separate domain? Does it have to be in PDF form or interactive?*

It is necessary to offer an interactive educational and documentation service on the domain.

- Additionally, please give info, are there exactly specified printers, what is meant by a mobile printer?*

1.2.24.	The application must support printing to mobile printers
---------	--

The application must support printing to standard print interfaces from a mobile phone. The user, if he has a printer connected to a mobile device, must be able to print content from the screen.

- *Is it necessary to deliver a certificate with the application and what kind of certificate must it be?*

1.2.26.	Possibility of embedding SSL certificates in communication
---------	--

Yes, wildcard. The certificate must have a minimum duration of 60 months, during which period maintenance and renewal must be covered.

Procurement 1.3.:

1.3.17.	Supported versions: - Oracle 11g R2 (11.2.0.4.0) Standard Edition / Standard Edition One or Two or - Oracle 12c (12.1.0.2.0) Standard Two, Enterprise Edition or equivalent
---------	--

These versions of Oracle databases are not available, is the latest version 19c acceptable?

Version 19C is also acceptable.
