Questions of interested parties and clarifications

**15th December 2020**

**Question 1:**

We need information/clarification on what you mean by a warranty on dies.

Is the 12-month guarantee for example for die breakage/damage or for dry pasta specifications/insert conformity?

**Answer 1:**

The warranty has to be valid for the product itself (i.e. for dies) in situations of regular use as per manufacturer's conditions.
